1. Purpose

Stena Marine Management ApS RoRo Division will ensure that in all its activities the highest priority is given to care for environment and to prevent any damage to the environment

2. Scope

This policy applies to all employees. Contractors and suppliers shall conform to this policy whilst under contractual agreement with Stena Marine Management ApS RoRo Division.

All procedures and practices relating to environmental performance must follow this policy and contribute to Stena's development in line with the company's vision, mission and strategy.

3. Objective

Stena Marine Management ApS RoRo Division recognize that shipping operations has an environmental impact. We will continuously strive for improved and sustainable operation with minimal environmental impact and in the same time fulfilling our business objectives.

4. Policy

- At all times comply with national and international environmental rules, regulations and other requirements
- Commitment to requirements and needs of our stakeholders (owners, charterers, public)
- Continuously strive for optimal use of natural resources.
- Reduce generation of waste and emissions in all phases of the operation.
- Limit the impact on the biodiversity on operational areas
- Actively consider environmental impact in purchasing of materials and services and cooperate with key suppliers to continuously improve performance.
- Evaluate and implement new technology and solutions that will have a positive impact where feasible.

We are dependent on the knowledge and competence of our employees in this objective and aim to increase environmental awareness and excellence through training as well as broadcasting of our environmental policy and program to all co-workers.
